International Court of Justice

The International Court of Justice (ICJ) issued an advisory opinion on July 19, 2024, that Israel's presence in the Occupied Palestinian Territory (OPT) is unlawful and must end as soon as possible. The ICJ's opinion included the following findings:

- Israel is responsible for apartheid and racial segregation against Palestinians
- Israel's occupation of the OPT is illegal
- Israel must provide reparations to Palestinians
- All states and international organizations, including the UN, must not recognize the legality of Israel's presence in the OPT
- The UN should consider how to end Israel's presence in the OPT
